

Margo Romero

PROGRAMMER ANALYST | DEVELOPER ADVOCATE

*Innovative, creative, and collaborative front-end developer with a strong knowledge in back-end programming and design. Looking to combine my digital marketing and public relations skills with my **passion** for technology.*

Projects

7/2017 - present

CODECRUMBS.TECH

Individual Project

▪ Developer Advocate

Promoting diversity within the engineering community by providing resources and mentorship as well as sharing developer products and trends via social media, blog posts, workshops, speaking at tech conferences, and more.

▪ Freelance Work

Create, design, and manage a variety of websites / social media for small businesses and brands. Provide content creation services and resources as well as digital marketing guides.

Work Experience

6/2017 - present

Programmer Analyst

Newsday, Melville, New York 11747

▪ Pressroom Payroll System

Responsible for UI design for various web forms using Master Pages, HTML/CSS, and JavaScript. Designed, developed, and implemented an updated version of a Pressroom Payroll System using C#, ASP.Net, and SQL databases.

▪ Vendor Tip Report Automation Program

Updated Tip Report Program originally written in FoxPro to modern, efficient, and automated code written in C#.

▪ Report Distribution Change Request Web Form

Created new web form application using HTML/CSS & JavaScript for internal clients to use when requesting technical reports.

▪ Company-Wide Transition Project to New Circulation System

Heavily involved in client management to process analytical reports for future use of interfaces and reporting for future use. Process analysis, design, testing, and implementation of methodologies for reporting solutions.

6/2017 – 9/2017
